

COD Import/Export Report (RERIMEX)

The COD Import/Export Report allows you to review all XML files that have been extracted from Banner for transmission to COD and/or to review COD responses that have been imported into your Banner system.

Based upon the parameters you choose, the report will provide only extracted documents, only imported documents or both extracted and imported documents.

The parameters to run RERIMEX are as follows:

	<u>Name</u>	<u>Required</u>	<u>Description</u>	<u>Values</u>
01	Aid Year	Y	Enter a valid aid year	0405
02	Records to Report	Y	Enter a value to select the desired output	E – Extracted documents only I - Imported documents only
03	Document ID	N	Use this parameter to request a report based on one or more specific Document ID(s)	Choose an existing Document ID from REICODD
04	Date Selection Type	N	This value determines if you want to report by the extracted date or the response date as displayed on REICODD. If you enter a value for this parameter, you must also enter a range of dates in parameters 05 and 06.	E – Extracted Date R – Response Date
05	Beginning Date		Enter a beginning date if parameter 4 is used.	
06	Ending Date		Enter an ending date if parameter 4 is used.	

This report will print in landscape format.
