

## RORCALC - Calculated Values Report

The "Calculated Values Report" (RORCALC) is a standard report delivered from SCT. This report has been modified, tested and placed into Production. RORCALC is now available for your use.

RORCALC is also a Banner process, "The Calculated Values Process". As a process, RORCALC calculates an applicant's FM values for Gross Need, Unmet Need and EFC. These values are stored in the student's RORSTAT record. RORCALC is run each evening as part of our sequenced financial aid processes.

As a report, RORCALC displays the results of these calculations. The information provided on this report can be used to identify potential over-awards indicated by a negative FM Unmet Need.

To run this report, type "RORCALC" in the Direct Access field. Enter your printer name (all caps) in the printer field. Enter parameters as follows:

01	Aid Year Code	0001
02	Print Report	F - Print Students with FM Overawards I - Print Students with IM Overawards N - Do Not Print Report O - Print all Students with Overrides Y - Print all Selected Students
03	Report Selection Query	blank
04	Application Code	blank
05	Creator ID	blank
06	Sort Order	N (default value)

In the "Submission" block, save your default parameters and submit the process with the SAVE button. This report will print in landscape format.

**Sample Output:**

21-SEP-2000 08:17 AM

AID YEAR: 0001 2000-2001 Award Year

Asnuntuck Community College
