

RPRADSB - Applicant Disbursement Report

The Applicant Disbursement Report provides the user with an easy and effective way to report cumulative disbursement information on a student for a particular term. The user can report on one fund, multiple funds, or all funds. Loan funds can be included to provide complete disbursement data.

Sort order for the report is Student (primary), Fund (secondary), and AR Transaction Number (tertiary).

The report has been streamlined so that data for each fund displays on one line.

Users can run the report by just invoking RPRADSB from GJAPCTL (the Job Submission Control Form). The parameters are self-explanatory. (Please note that if you are running this report for more than 1 term, you should enter each code individually in Parameter 04.)

Sample Output:

06-OCT-2000 14:09:06
AID YEAR: 0001 2000-01 Award Year
