

## RPRAWDB - Student Award and Disbursement Report

The new Student Award and Disbursement Report (RPRAWDB) can be requested at any time, not just produced as a result of the disbursement process. The report prints the summary by fund of the accepted award amount, memo'd amount, authorized amount, and disbursed amount. Miscellaneous functionality includes:

- Sort options include Name and ID (primary) and fund (secondary).
- When the *Term Code* parameter is left blank, the report prints data for the entire financial aid year.
- If multiple term codes are selected, the report prints the entire year's data separated by term, for each student, before beginning with the next student.
