

## **RWPXDHE – Financial Aid DHE Extract**

In anticipation of having to provide student unit record data at some future time to the Connecticut Department of Higher Education, the Team created two new extracts for college use. The RWPXDHE process will produce both a standard extract in the DHE specified format as well as a custom community college extract.

The parameters for RWPXDHE are as follow:

01 Aid Year

02 Population - A (CAPCS recipients only)  
                  B (Tuition Set-Aside recipients only)  
                  C (Federal T4 Aid recipients only)  
                  D (All aid recipients)

03 File Layout - 1 (Standard DHE specification)  
                  2 (Custom community college layout)

Data dictionaries for both file layouts follow. As usual, the RWPXDHE extract will be moved to your Reports folder on your college's financial aid share.
