

## RWRXE01 - Remaining Pell Eligibility Report

RWRXE01 is a report that will identify students who may have Pell Grant entitlement remaining for the summer session. This report lists students enrolled during the academic year who have Pell Grant awards with remaining Pell Grant eligibility. (Remaining Pell eligibility is determined by the student's scheduled Pell Grant award minus Pell Grant paid to date. If the amount remaining is greater than zero, the student will appear on this report.)

There is only one parameter required to run this report:

01      Aid Year                      enter appropriate aid year

This report will print in landscape format.
