

RWRXL01 – Detailed Results

For your convenience, detailed results pages will now be produced each time you run the letter generation process – RWRXL01. We have added these detailed results pages so you will be able to review the students for whom an email notification or printed letter was produced.

These detailed results pages will list the student's Banner ID, Name, Letter Code and Delivery Method (emailed/printed) for each letter generated from the RWRXL01 process. A summation of the delivery method used is included at the end of the detailed results pages.

After running RWRXL01, these detailed results pages will be included in the RWRXL01.pdf output file.

Please see the attached sample of RWRXL01 Detailed Results.
