## Phase II/Part 3: NSLDS Transfer Monitoring Import Process

There are two types of Transfer Monitoring files you will receive from NSLDS: “**trninfop**” (**Error/Acknowledgement file**) and “**tralrtp**” (**Alert File**). When you receive these files back from NSLDS, be sure to import them into Banner. **RWPXN04 – NSLDS Transfer Monitoring Import Process** is the name of our customized process to import Transfer Monitoring files into Banner.

To use RWPXN04 (NSLDS Transfer Monitoring Import Process), follow these steps:

1. Be sure to place your Transfer Monitoring files (trninfop/tralrtp) in your college’s PROD/EDE folder on CTCROBUSTA.
2. Type RWPXN04 into the Direct Access Field. This will bring you to GJAPCTL, “Process Submission Control Form”. There are no parameters for this job - simply submit the job.

After you run the RWPXN04 process, the “Monitor Begin” and “Add Batch ID” fields are populated on RNATMNT.

## Phase II/Part 4: Changes to Banner Forms and Processes

### RNASL03 (2002-03 Student Loan Data System Form)

SCT has added new fields to the NSLDS Summary section of RNASL03. These new fields enable you to view the NSLDS transfer monitoring status (added, end date, removed, alert rcvd) of an individual student. These new fields are described below:

2002-2003 Student Loan Data System Form RNASL03 5.5 C (TRNG) [G\_FATEAM]

Loans Changed:

**Transfer Monitoring Added** – This indicator is automatically checked if a request for monitoring has been sent to NSLDS for this student and for this aid year.

**End Date** – This field displays the date when transfer monitoring ends for the student.

**Removed** – This indicator is automatically checked if a request has been entered on RNATMNT to remove this student from transfer monitoring. To remove a student from transfer monitoring, you must check the “Rem” indicator on the “**Transfer Monitoring Update and Acknowledgement window of RNATMNT**”. From the first screen of RNATMNT, highlight the student you want to remove from monitoring and perform a next block. This brings you to the “Transfer Monitoring Update and Acknowledgement” window as shown on the next page.

## Transfer Monitoring Update and Acknowledgement Window of RNATMNT

From this screen, check the “Rem” indicator and SAVE. The next time you run RWPXN03 and send the file to NSLDS, the “Rem Batch ID” field will be populated.

ID	SSN	Last Name	First Name	Birth Date	Enrl Begin Date	Rem
		ROBINSON	AISHA	15-AUG-	15-AUG-2002	<input checked="" type="checkbox"/>
School	Monitor End Date	Add Batch ID	Add Ackn Date	Rem Batch ID	Rem Ackn Date	
007635	13-NOV-2002	2002041002				

Acknowledgement Error Codes

Insert Record to create new TM request; Insert/Duplicate to create new TM request for same student

After you run RWPXN04 (Transfer Monitoring Import Process), the “Rem Ackn Date” will show the date the student was removed from NSLDS Transfer Monitoring.

This window will also display any acknowledgement error codes and messages that may have been imported through the RWPXN04 process.

**RPIBATC (Batch Control Form)**

RPIBATC has been modified to include new values for transfer monitoring batch submissions. To view transfer monitoring batch information, select a **Main Type Code** of **“T=Transfer Monitoring”** and its **Sub type “T=TM Inform File”**.

Batch ID	Creation Date	----- Records -----				Confirmation Date
		Recd	Acpt	Rej	Pend	
2002052301	23-MAY-2002 10:21:3	3	3	0		24-MAY-2002 1
2002051501	15-MAY-2002 09:38:4	254	0	254		21-MAY-2002 1
2002042601	26-APR-2002 10:53:4	254				

This completes Transfer Monitoring Process - Phase II .

**Reminders:**

- Be sure you have properly set up both the NSLDS and SAIG web sites and confirm that you are using EDconnect 5.1.0.
- Remember that the seven-day student disbursement hold begins as soon as you run the extract process (RWPXN03) and create the trnfin.dat extract file. You must send the trnfin.dat file to NSLDS the same day it is created.
- Remember that **ALL** student changes must be made within the Banner Financial Aid System. The NSLDS web site should be used for query or research purposes only.
