Introduction

In the Fall of 2005, there are 46,227 students enrolled in Connecticut community colleges. This represents a 1.1% increase over Fall 2004. Enrollment is at its highest level. This Fall is also a record-breaking semester with respect to FTE. Our colleges are serving 25,743 Full-time Equivalent Students, which is the largest number ever. As compared to Fall 2004, General Fund headcount enrollment has increased by 1.3% and General Fund FTE enrollment has increased by 2.2%.

In the Fall 2005 semester, 64.6% of all community college students are part-time, and 35.4% are full-time. As a percent of total enrollment, full-time attendance has increased by 7.2% since Fall 2001, while part-time attendance has decreased by 7.2%. From 1998 to 2001, part-time students generated more FTE than full-time students. This trend changed in 2002 and as of this Fall, full-time students account for 55.2% of the total FTE generated.

This Fall, 14,770 minority students make up 32% of the student body (28.4% are Black and Hispanic) – a 20.5% increase in minority enrollment since 2001. The system's gender composition has remained relatively consistent over the past five years. This Fall, 63.1% of the student body is female and 36.9% is male.

The average age of the student population is 28; 21 for full-time students and 32 for part-timers. Full-time enrollment continues to increase and these are generally the more "traditional age" college students; 74.3% of them are under the age of 22. Overall 42.1% of our students are under the age of 22. This represents a 30.5% increase since 2001 and the largest proportion of our student body.

In the Fall of 2005, 44% of all community college students are enrolled in occupational programs. Liberal Arts and Sciences and General Studies programs account for an additional 35.1% and the remaining 20.9% of the students are not enrolled in a specific degree or certificate program. Over the last five years, among specific programs, Liberal Arts and General Studies have seen the largest growth; up 31.4% since Fall 2001.

The most popular programs among both minority and non-minority students are Liberal Arts/General Studies, Business and Social/Public Services.

The most popular programs among female students are Liberal Arts/General Studies, Business and Health/Life Sciences. The popular programs among males are Liberal Arts/General Studies, Business and Science/Engineering/Technology.

Our credit students come from all over the state of Connecticut and represent 49.3% of the total undergraduate student enrollment in public higher education. Our students reside in all 169 towns (see the map on page 29).
