The Applicant Requirements Tracking Report (RRRAREQ) provides detailed information on each applicant’s tracking requirements and the status of each requirement. It also gives the student’s budget group, packaging group, dependency status, class status and enrollment status. (The applicant’s social security number is currently not available on this report. However, this field will be added to this report in the near future.)

To run this report for all students and all requirements (satisfied or unsatisfied), use the following parameters:

03 - Aid Year Code

04 - Term Code

Parameters 08, 09 and 12 default with “N” values. In order for this report to print properly, these “N” values must be removed.

Other parameters are optional and can be used if you want to report on specific requirements/groups, etc. For more information about these options, please refer to the Banner User guide, Chapter 17 “Reports and Processes”.
